```
Tom: D
Intro: Guitar 1 plays riff, while guitar 2 plays chords

                G                        G

   Em                    C           A2

Verse, Guitar 1 tacet:
G
Waiting for the moon to come and light me up inside
         Em                          C           A
And I am waiting for the telephone to tell me I'm alive
Well I heard you let somebody get their fingers into you
It's getting cold in California
I guess I'll be leaving soon

Chorus:

D
Daylight fading
         Em7           C
Come and waste another year
        Em7           C             G             D
All the anger and the eloquence are bleeding into fear
D                             Em7            C
Moonlight creeping around the corners of our lawn
        Em            A2                 C
When we see the early signs that daylight's fading
         D
We leave just before it's gone
