G                        Am
What in the world
Bm                                Am                    G
Am    Bm    Am
Would cause you to question that?
G                        Am         Bm
How did I come off?
    Am                            G   Am   Bm   Am
Would lead you to ask

     C              D
Can I help you along?
  G            Am
Sun in the room
   Bm                Am
Curtains too soon
  G                          Am          Bm       Am
The day is coming closer
        G                      Am                    Bm
The dream slipping through me will fade
Am                    G             Am       Bm         Am
Inching slowly from slumber

 C                     D
And I love you a lot
     G              Am
Whatever you want
     Bm            Am
Wherever you are (Wherever you are)
     G   Am   Bm   Am
Wherever you are
     G   Am   Bm   Am
Wherever you are

                        G
Wherever you roam

Let me tell you babe
 Am                     G              Am   Bm   Am
Not every moment matters
```

```
G                       Am        Bm
Across marked jots laid down
Am                          G                  Am    Bm   Am
Look you're growing faster and faster
G                    Am          Bm          Am
Heights that I held you up
G                  Am                 Bm      Am
Times when I couldn't be at home

      C                 D
And I owe you a lot
      G                  Am
So whatever you want
  Bm              Am
Wherever you are (Wherever you are)
  G   Am   Bm   Am
Wherever you are
  G   Am   Bm   Am
Wherever you are
  G
Wherever you are

 G   Am   Bm   Am
Wherever you are
 G   Am   Bm   Am
Wherever you are
 G   Am   Bm   Am
Wherever you are
 G   Am   Bm   Am
Wherever you are
 G   Am   Bm   Am
Wherever you are
 G   Am   Bm   Am
Times when I couldn't be enough
 G   Am   Bm   Am
Wherever you are
 G   Am   Bm   Am
Wherever you are
