KILLER GUITAR SOLO THAT I COULD ACTUALLY FIGURE OUT!
GTR 1

GTR 2

rest of melody for GTR 2

   pm  pm  pm

Rest of GTR 1's solo

that sepultura usually tunes their whole guitar down instead
of

just the bottom string. in drop D itsjust easier to play the

power chords and it helps you avoid tuning the whole freakin

guitar every song.

in this part of the solo the guitars are doubled. I thought id

never figure this out until I got winamp.

easy.
GTR 2

ITs done. I feel like a genious. I'm 13 and I figured out a

solo with a broken string.

Here Ive put both GTR's into one. If you (like me) have a hard

time playing this way, than just play guitar ones part and it

sounds fine.
