Rosa de Saron - Open Your Eyes

```
                              tom:
                G

            G                C
All this feels strange and untrue
       Em                     C        G
And I won't waste a minute without you
                  C
I want so much to open your eyes
          Em                    C  G
´Cause I need you to look into mine

                    C             Em
Tell me that you'll open your eyes
                    C             G
Tell me that you'll open your eyes
                    C             Em
Tell me that you'll open your eyes
                    C             G
Tell me that you'll open your eyes

                     C
Get up, get out, get away from these liars
             Em                        C   G
´Cause they don't get your soul or your fire
                       C
Take my hand, knot your fingers through mine
           Em                              C       G
And we'll walk from this dark room for the last time
                 C
Every minute from this minute now
```

```
       Em                  C   G
We can do what we like anywhere
                  C
I want so much to open your eyes
          Em                   C  G
´Cause I need you to look into mine
                    C            Em
Tell me that you'll open your eyes
                    C            G
Tell me that you'll open your eyes
                    C            Em
Tell me that you'll open your eyes
                    C            G
Tell me that you'll open your eyes
                    C            Em
Tell me that you'll open your eyes
                    C            G
Tell me that you'll open your eyes
                    C            Em
Tell me that you'll open your eyes
                    C            G
Tell me that you'll open your eyes
C        Em        C          G
Ô ôôô...   Ô ôôô...  Ô ôôô...    Ô ôôô
C        Em       C          G
Ô ôôô...   Ô ôôô...  Ô ôôô...    Ô

                C
All this feels strange and untrue
       Em                    C
And I won't waste a minute without you
```
