

30 Seconds To Mars - Echelon

Tom: C

F A x4

Look at the red red changes in the sky
 Look at the separation in the border line
 But don't look at everything here inside
 And be afraid, afraid to speak your mind

G D C A x4

It took a moment before I lost myself in here
 It took a moment and I could not be found?
 Again and again and again and again I see your face in
 everything

It took a moment the moment it could not be found?

F A x4

What's with the fascination with the Echelon
 What's with the constant questions that you have this time
 What's with this circumstantial consequence
 Find oversight before this night will ever rise again
 It's all you've got inside your head, better get up and leave
 instead

G D C A x4

It took a moment before I lost myself in here

It took a moment and I could not be found?
 Again and again and again and again I see your face in
 everything
 It took a moment the moment it could not be found?
 F A x4
 To find ourselves lost here within we need reasons why
 So we take this bridge with the other's that will thrive in
 the great divide
