

30 Seconds To Mars - Great Wide Open

Tom: C

Is this life?
That we're living

Say the prayers of a thousand tongues

Is this love?
Some new beginning

Or a night in our wildest dreams

Into the great wide open

Across a land of love and dreams

I will save your heart from breaking

Won't you stop, please

Set me free

I swear to god
I'm the devil

Raise your hands to the sky and praise

I'm a thief
You're a liar

But we live in our wildest dreams

Into the great wide open

Across a land of love and dreams

I will save your heart from breaking

Won't you stop, please

Set me free

Set me free

Set me free

Set me free

Let it out, let it out
Go on

Time to lay down your arms

Let it out, let it out
Go on

Time to lay down your arms

Into the great wide open

Across a land of love and dreams

I will save your heart from breaking

Won't you stop, please

Set me free
Raise your hands to the sky

Set me free
Raise your hands to the sky

Set me free
Raise your hands to the sky

Won't you stop, please

Set me free
