

5 Seconds Of Summer - Daylight

Tom: Ab

(com acordes na forma de Capostrate na 1ª casa G)

I can't look at you in the same light
 Know what you did to my heart doesn't feel right
 Yeah, my head's been tripping all night
 I need another point of view

I got a friend who's committed to sci-fi
 He's read every comic, he's addicted to twilight

Could give you the goosebumps
 But he's never led me wrong

He said, "She's got a method of killing
 Pulling you in like you're gonna start kissing
 Fooling around, until you lost all feeling
 Sucking your blood until your heart stops beating"

Before we started it was over
 I feel our bodies getting colder
 She gives me a feeling that I can't fight

And its the road that leads to nowhere
 But all I wanna do is go there
 She's got me running from the daylight
 Daylight

I got a taste for it and I'm obsessed
 Lying here no fear in the darkness
 Now I'm not happy unless I'm close enough to you

And all these dreams I'm dreaming
 Freaking me out I wish I knew the meaning
 Doesn't make sense because I'm just not seeing

How I'm alive, it feels like I'm not breathing

Before we started it was over
 I feel our bodies getting colder
 She gives me a feeling that I can't fight

And its the road that leads to nowhere
 But all I wanna do is go there
 She's got me running from the daylight
 Daylight

I'm not ready to start again
 And you're not willing to make amends
 Now the daylight's dangerous
 It will turn us both to dust

I'm not ready to start again
 And you're not willing to make amends
 Now the daylight's dangerous
 I believe it's much too late for us

Before we started it was over
 I feel our bodies getting colder
 She gives me a feeling that I can't fight

And its the road that leads to nowhere
 But all I wanna do is go there
 She's got me running from the daylight
 Daylight

I feel our bodies getting colder
 She gives me a feeling that I can't fight

And its the road that leads to nowhere
 But all I wanna do is go there
 She's got me running from the daylight
