   C                                              G
I can't remember the last time I saw your face
                                                 Am
I feel so lonely when I'm in a the crowded space
                 F
You left me without direction

C
'Cause I've been from place to place
                              G
Trying to bring you back

I've walked for days and days
                               Am
'Cause I can't face the fact
                              F
That nothing is better than you

                    C           G
I'm coming because I need to find you
              Am          F
Is anybody there who can rescue
                  C
Somebody like me?
                  G
'Cause I'm just waiting
                     Am
For somebody like you
                     F
Somebody like you
                              C                G
Without you I'm a lost boy
                    Am                  F
Without you I'm a lost boy
                           C                G
Come find me I'm a lost boy
                           Am              F
'Cause without you I'm a lost boy

C                                       G
I can't remember the last time I heard your voice
                                              Am
I'm sat in silence living in a world of noise
                           F
'Cause you were perfection

C
'Cause I've been from place to place
                     G
Trying to bring you back

I've walked for days and days
                           Am
'Cause I can't face the fact
                              F
That nothing is better that you

                    C           G
I'm coming because I need to find you
              Am          F
Is anybody there who can rescue
                     C
Somebody like me?
                     G
'Cause I'm just waiting
                        Am
For somebody like you
                        F
Somebody like you
                                 C                G
Without you I'm a lost boy
                    Am                  F
Without you I'm a lost boy
                           C                G
Come find me I'm a lost boy
                           Am              F
'Cause without you I'm a lost boy

'Cause without you I'm a lost boy

  C                        G
I'm coming because I need to find you
              Am          F
Is anybody there who can rescue
                     C
Somebody like me?
