

A Great Big World - Everyone Is Gay

Tom: A

If you're gay, then you're gay, don't pretend that you're straight

You can be who you are, any day of the week

You are unlike the others

So strong and unique, we're all with you

If you're straight, well that's great, you can help procreate

And make gay little babies for the whole human race

Make a world we can live in

Where the one who you love's, not an issue

Cause we're all somewhere in the middle

We're all just looking for love to change the world

Aaaaaaaaaaaaaaaaaah

What if the world stops spinning tomorrow

We can't keep running away from who we are

Aaaaaaaaaaaaaaaaaah

If you're gay, then you're gay, if you're straight, well that's great

If you fall in between, that's the best way to be

You've got so many options

Every fish in the sea wants to kiss you

Cause we're all somewhere in the middle

We're all just looking for love to change the world

Aaaaaaaaaaaaaaaaaah

What if the world stops spinning tomorrow

We can't keep running away from who we are

Aaaaaaaaaaaaaaaaaah

And we're all here in it together

We're one step closer to breaking down the walls

Aaaaaaaaaaaaaaaaaah
