

# A-Ha - Thought that it was you

Tom: D

(Morten Harket / Ole Sverre Olsen)

Int.: Bm D A (2x)

I thought that it was you  
 The things you saw me do  
 They were true  
 Little did I know  
 You found me in your joy  
 And there was I, a little boy  
 My shadows they're not new  
 My soul's split in two  
 Lord, I thought that it was you  
 This Christmas snow that falls  
 Gives silence to us all, amen, amen  
 You know my deepest sin

You've seen me deep within  
 So fill me now like wind  
 And let the miracle begin  
 There's a river and you know  
 There's a place we used to go  
 That's where I throw our ashes now  
 I must have walked into a cave  
 Among these things that you must save  
 And there I touched the grave  
 You know my deepest sin  
 You've seen me deep within  
 But fill me now like wind  
 And let the miracle begin  
 And the secrets that you say
