

A-Ha - Thought that it was you

Tom: D

(Morten Harket / Ole Sverre Olsen)

Int.: Bm D A (2x)

I thought that it was you
 The things you saw me do
 They were true
 Little did I know
 You found me in your joy
 And there was I, a little boy
 My shadows they're not new
 My soul's split in two
 Lord, I thought that it was you
 This Christmas snow that falls
 Gives silence to us all, amen, amen
 You know my deepest sin

You've seen me deep within
 So fill me now like wind
 And let the miracle begin
 There's a river and you know
 There's a place we used to go
 That's where I throw our ashes now
 I must have walked into a cave
 Among these things that you must save
 And there I touched the grave
 You know my deepest sin
 You've seen me deep within
 But fill me now like wind
 And let the miracle begin
 And the secrets that you say
