

Abandoned Pools - The Remedy

tom:

Em

Em

G

I, I could use

A shot your novacaine

My soul's a fuse

Blows away your name

Then you can be the remedy

And I can be the enemy

And he can go and live as nothing

Then you can be the wanna be

And I can be the remedy

And he can go to hell for all I care

Say this world is not so shallow

When you can't beg steal or borrow

Save your breath your soul is hollow

And it's all too much to swallow

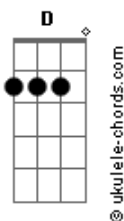

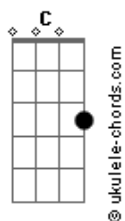

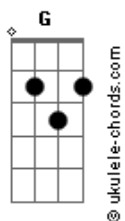

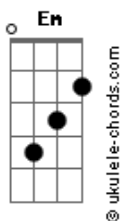

Take the souvenir

They can't deny you were here

This scar always there

To medicate your fear

Acordes

Then you can be the remedy
 And I can be the enemy
 And he can go and live as nothing
 Then you can be the wanna be
 And I can be the remedy
 And he can go to hell for all I care

Say this world is not so shallow
 When you can't beg steal or borrow
 Save your breath your soul is hollow
 And it's all too much to swallow

Then you can be the remedy
 And I can be the enemy
 And he can go and live as nothing

Then you can be the wanna be
 And I can be the remedy
 And he can go to hell for all I care
 Say this world is not so shallow
 When you can't beg steal or borrow
 Save your breath your soul is hollow
 And it's all too much to swallow
