

Abbey Glover - Help Me

tom:

Help me out

I really need your help right now

I can't seem to find a way out

Alone

My brains not functioning

I could really do with something

To keep my mind of everything

That's going on

I'm screaming

Help me, help me, help me honey

Can you help me, help me now

You always knew the words to say

To make everything all okay

And I miss you

And I need you tonight

Looking at myself

I really don't like what I see

And the mirror keeps saying nasty things to me

You used to make me feel pretty

Light up the dark days

Now everything's turned into grey

No more sun

I'm screaming

Hold me, hold me, hold me honey

Can you hold me, hold me now

You always knew the words to say

To make everything all okay

And I miss you

And I need you tonight

(Am G Am)

I'm screaming

Help me, help me, help me honey

Can you help me, help me now

You always knew the words to say

To make everything all okay

And I miss you

And I need you tonight

Oh honey I miss you

And I need you

Tonight
