

Abbey Glover - I Cant Sleep

tom:
Capostrate na 1ª casa

[Primeira Parte]

Wow, I feel lonely today
Wish there was someone around
Someone I could pour my heart to out loud, loud
There's a pain in my chest
A pain like all the rest
And I'm not doing so well
I'm not doing so well, I confess

[Refrão]

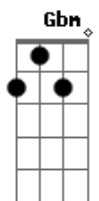

But it's only today
Tomorrow's coming my way
But it takes a little longer to arrive
?Cause I can't seem to sleep at night
But it's okay, ?cause right now I got you on my mind
And I'd take thinking of you over sleeping any time

[Segunda Parte]

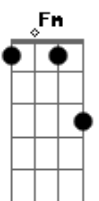

It's a new day today
It's weird ?cause I feel different but I feel the same
I was waiting for a message, it's alright
Maybe I'll get one from you tonight
I don't wanna be the first one
I don't wanna seem pushy or lame

And I don't want you to know that I need to speak to you in order
To feel okay, feel okay

[Ponte]

There's a sun in the sky, but you're mine
Thunder and lightning make my heart beat faster but you do it all
The time
There's a sun in the sky, but you're mine
Thunder and lightning make my heart beat faster but you do it all
The time
You do it all the time
