

Abbey Glover - I Wish You Liked Girls

Tom: **G**

G
I grew pretty attached to you,
Like a dog on a lead.
Em
Thought you were everything I could ever of dreamed of
And more than I could ever need,
C
But you like boys, boys, boys
But you like boys, boys, boys
G
And you don't like me.

G
Always thought you looked at me differently
Than anyone that you'd see.
Em
Thought you were aching to see me
At any, any possibility.
C
But you like boys, boys, boys
But you like boys, boys, boys
G
And you don't like me.

Em
I could be a bitch and tell you a million reasons why,
C
Being with me would be much better than with any other guy
G
I could tell you I'll treat you right
And never wrong
D
Tell you in my arms is where you belong
But I know that you can't change someone
So I'll just leave you alone, although
C
I wish you liked girls, girls, girls
Wish you liked girls, girls, girls
G
Girls like me.

G
You could of had the decency to tell me
Everytime I'd kiss you
Em
That women isn't really something
That you've ever been into
C
Cos you like boys, boys, boys
Cos you like boys, boys, boys
G

And you don't like me

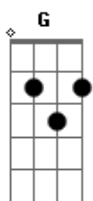

G
You could of had the kindness to turn me
down privately
Em
Instead of laughing about it with all of your friends
And talking shit about me
C
Cos you like boys, boys, boys
Cos you like boys, boys, boys
G
And you don't like me

Em
I could be a bitch and tell you a million reasons why,
C
Being with me would be much better than with any other guy
G
I could tell you I'll treat you right
And never wrong
D
Tell you in my arms is where you belong
But I know that you can't change someone
So I'll just leave you alone, although
C
I wish you liked girls, girls, girls
Wish you liked girls, girls, girls
G
Girls like me.

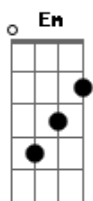

D
And I know you don't swing that way
But that won't take my feelings away
C
Oh I wish you liked girls
Em
I wish you liked girls
D
Like me.

Em
I could be a bitch and tell you a million reasons why,
C
Being with me would be much better than with any other guy
G
I could tell you I'll treat you right
And never wrong
D
Tell you in my arms is where you belong
But I know that you can't change someone
So I'll just leave you alone, although
C
I wish you liked girls, girls, girls
Wish you liked girls, girls, girls
G
Girls like me.
