

# Abbey Lincoln - Evening Star

Tom: G

If you never rode West of  
The Arizona border  
You can turn the other way, boy  
But you never get far  
You be living a lie  
If you wanna see the wonders of the age  
You must follow  
The evening star  
Chorus  
Evening star  
Shine a little heaven on a stranger with no dream  
Where you are you can see the loneliness I mean  
And if I gotta I can never play  
Somebody else's game  
I can follow the evening star  
Starlight, you never need somebody else's name  
If you follow the evening star  
Have you ever known a sunset  
When the sky's on fire  
How you end another day, boy  
You be searching too far

Like the desert I rode on  
Any memory is lost in the restless wind  
I just lie beneath  
The evening star  
Chorus  
Have you ever held a woman  
In the California moonlight  
Put your money on a good night  
If you never been there  
It's a sight for sore eyes  
If you wanna see the wonders of the age  
Making love beneath  
The evening star  
Chorus bis: (A Tone Higher)  
Evening star  
Shine a little Heaven on a stranger with no dream  
Where you are you can see the loneliness I mean  
And if I gotta I will never play  
Somebody else's game  
I can follow the evening star  
Starlight, you never need somebody else's name  
If you follow the evening star
