

# Abstract Shadows - Distant Voices

tom:

Intro: A E Dadd9 Dm A

I'm lost in the sorrow

And blind in the pain

But my tears will never dry

My destiny is traced

And I have much fear

Cause' my heart's bleeding now, so

Tears are rolling down on my face

So take away my pain, and then

Heal my soul and look into my eyes

Don't fade away

Show me the way that i have to follow

To be easier in my mind

The light shines into my heart

My trust will save my soul

And I really trust you

My frozen tears wash my heart

But only you can cure my pain

You tell me words

That I can't understand

When you look into my eyes

So please never lie!

You told me that we were together

And I believed in you

And i can't see the truth so

My heart is crying now

( Em Dadd9 C B )

You tell me words that I can't

(Understand) Oh No!

You tell me words that I can't

(understand) Oh No!

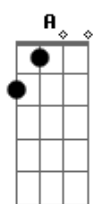

You tell me words that I can't

Oh no!

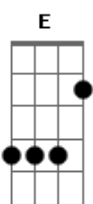

You tell me words

That I can't understand
