

# Ace Of Base - Whenever You're Near Me

tom:

Intro: C Dm Bb F  
C Dm Bb

Whenever you're near me  
I give you everything I have

Someone to believe in

When things are good or when they're bad

You know how to please me  
Like nobody can

Someone to believe in  
Be my lover be my friend

When every race is run and the day is closing in  
I feel the need to hold you, let the night begin  
Come softly to me, show me why

Whenever you're near me  
I give you everything I have

Someone to believe in

When things are good or when they're bad

You know how to please me  
Like nobody can

Someone to believe in  
Be my lover be my friend

I cannot wait to feel the beating of your heart  
The days are long and they're just keeping us apart  
Come softly to me, show me why

Whenever you're near me  
I give you everything I have

Someone to believe in

When things are good or when they're bad

You know how to please me  
Like nobody can

Someone to believe in  
Be my lover be my friend

Whenever you're near me

( C Dm Bb F )  
( C Dm Bb F )  
( C Dm Bb F )  
( C Dm Bb )

Love is the reason

We can feel this way inside, oh oh

Turning the World around and making us wild

Love is the music beating in our hearts tonight, oh oh oh

Lighting the way to take us deeper inside

When ever you're

Whenever you're near me  
I give you everything I have

Someone to believe in

When things are good or when they're bad

You know how to please me

Like nobody can

Someone to believe in  
Be my lover be my friend

Whenever you're near me

Someone to believe in

Whenever you're near me

You know how to please me

Someone to believe in

Be my lover be my friend
