

Adaline - Let's Stay Inside

Tom: G

Intro: C Em Am G

Oh i love you, love you, love you more each year
They could strip away the cheer
I'd still be standing here

You gave me, gave me, gave me the greatest gift
I can strike it off my list
I no longer need to wish

Snowy streets are buzzing baby
Take me home and lay with me

Won't stop snowing today

So you should stay

Here for a while

No sense going away

So pray it stays this cold all year

Oh take me, take me, take me on a sleigh ride
Past the february nights into the spring morning light
Cause you thrill me, thrill me, thrill me like no one else
It's the best i've ever felt
You make the snow around me melt

All the lights are lovely baby
Mostly cause you're here with me

Won't stop snowing today

So you should stay

Here for a while

No sense going away

So pray it stays this cold all year

Let's stay inside

Let's stay inside

Let's stay inside

Acordes
