Adam Levine - A Higher Place

Tom: A
Intro: A D A D

```
A                   D               A           D
I don't know why I don't see happiness in this town
A         D               A         D
Everyone I meet seems so uptight wearing they frown
A             D                   A       D
What good's living where dreams come true if nobody smiles?
A           D                 A           D
Everyone's chasing the latest star, the latest style

D                       G         Gbm
You take me to another space and time
            Bm          G         Gbm
You take me to a higher place so I'm..
                        Em          Gbm
I'm bout to get out of the race, I don't mind
                        G                           A
You ought to know that everything's nothing if I don't have
you
```

(A D A D)

```
A               D                 A           D
I don't know if I'm the fool who's getting this all wrong
A             D               A         D
That's the dream, to sing the perfect girl the perfect song
A       D                 A           D
All I know is I can't keep on wearing this disguise
A             D                 A           D
When you're the only one that seems worth stealing my eyes

D                       G         Gbm
You take me to another space and time
            Bm          G         Gbm
```

```
You take me to a higher place so I'm
                        Em          Gbm
I'm bout to get out of the race, I don't mind
                        G                           A
You ought to know that everything's nothing if I don't have
you

                        A         D
You take me to another place, place
                        A         D
You take me to another place, place
                        A         D
You take me to a higher place

D                       G         Gbm
You take me to another space and time
            Bm          G         Gbm
You take me to a higher place so I'm
                        Em          Gbm
I'm bout to get out of the race, I don't mind
                        G                           A
You ought to know that everything's nothing if I don't have
you
D                       A    Bm
Space, space, space, space
G
Space, space, space, space

    A           Bm          Em          Gbm
So I'm about to get out of the race, I don't mind
                        G                           A
You ought to know that everything's nothing if I don't have
you
```
