

# Ady Suleiman - Longing For Your Love

Tom: F

D G

Dreaming of the day, when your heart  
Just to see you smile and hear your laugh  
Give me more time before you go  
Let me be a part and all of your world

C#dim7 D

Cause if you leave you are just a memory  
A faded shadow that haunts my dreams  
I need you girl can't you see

Em G D Ebm/b5

I'm longing for your love but you are moving away  
So don't leave me behind still there are words I want to say  
I wish you in my life forever and always  
I am falling in love with you each and every day

C#dim7 Edim7

D G

Waiting for the night you lay by my side  
I hold you in my arms and you tell me you are all mine  
When I am not with you, oh, it torches my mind

And all I want to do, oh, is having you in my life

C#dim7 D

Cause if you leave you are just a memory  
A faded shadow that haunts my dreams  
I need you girl, oh, can't you see

Em G D Ebm/b5

I'm longing for your love but you are moving away  
So don't leave me behind still there are words I want to say  
I wish you in my life forever and always  
I am falling in love with you each and every day

C#dim7 Edim7

Em G D Ebm/b5

I'm longing for your love but you are moving away (no noo)  
So don't leave me behind still there are words I want to say  
I wish you in my life forever and always  
I am falling in love with you each and every day (each and every day)
