Tom: **G**

Repeat that riff where appropriate. It's pretty much evident throughout the song. The lyrics and chord changes for the verse are as follows:

To be my girl  
When I needed you

**A**

To give me a whirl  
chorus-

**G**  
When I wanted all you had

And what you gave me turned out all bad

**C A Bb C D**

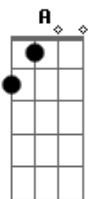

I needed all your love

You'll have to listen to the music to understand how the chords fit in with the song. Here are all the chords used in this post for those who aren't familiar:
