

## **After Forever - Beyond Me**

```
[Intro] Am F Am F7M F
I know I'm alone, but somebody's watching me
Follows me everywhere I go
A cold flow surprised me again, I shiver
The presence of something, I can hear it's breathing
                               F
Leave me alone, wherever you came from
Hearing so much voices, no one's talking
Am C G
Leave me alone
( G Am C G F G ) ( Am F Am F )
Leave me alone, wherever you came from
Hearing so much voices, no one's talking
Running for something, nothing, in the black of the night
Creeps around you, the invisible force that makes you crazy
I can't remember how it feels to be warm, to be alone
```

```
Without that fear deep inside
( Am Bb C Am Bb )
( Am Am G F Dm Em )
Icons of death float on beyond me

Whispering my name and breathing my fear
