

# Agnela - I'm Never Gonna Let You Go

Tom: Db

(intro) Eb

It's a beautiful day  
 You were supposed to be here  
 While i try to find the way  
 To forget this fear

Coz only you can find me  
 And only you can set me free

Every morning day My sunrise is gray  
 I just think about you

I'm gonna do this right I'm taking you in my arms  
 And i'm never gonna let you go  
 I'm never gonna let you go

I can't forget your blue eyes  
 When you look me paralyze me  
 I need strong to realize  
 That they were born to be wild

And only you can leave me  
 And only you trap my heart

Every morning day My sunrise is gray  
 I just think about you

I'm gonna do this right I'm taking you in my arms  
 And i'm never gonna let you go  
 I'm never gonna let you go

I'm never gonna let you go  
 I'm never gonna let you go  
 I'm never gonna let you go
