

# Air Supply - Someone Who Belives In You

Tom: C

when there's a dark storm on your horizon  
and you think you can't get through it  
just put your hand in my hand  
and I'll show you how to do it

when the future looks uncertain  
you can count on my to be there  
and when your heart and soul are hurtin'  
just look and you'll see me there

Chorus

just follow where I lead  
I'll give you what you need  
a Love that's always true  
and someone who believes in you

So when you're searching for that rainbow  
I will help you find it  
And when a mountain stands before you  
I will help you climb it  
just follow where I lead  
I'll give you what you need  
a Love that's always true

and someone who believes in you

it's time to come alive  
your moment has arrived  
I'll bring out the best in you

we can have it all  
no we will never fall  
looking down from our celestial view

Solo: (B B Dbm Gb B )(Dbm Gb Ebm B )(A Gb G )

Chorus (2x)

just follow where I lead  
I'll give you what you need  
and I'll tell you something else  
you'll start believing in yourself

it's an easy thing to do  
when you have someone who believes in you  
Segunda vez-(believes in you)

someone who believes  
Someone who Believes  
I'm someone who believes  
and you got someone who believes in you
