

AJ Mitchell - Down In Flames

tom: Ebm (forma dos acordes no tom de Am)
 Capotraste na 6ª casa

What you're feeling now is a sudden rush
 Getting mad, lashing out but I think it's love
 We don't talk for days, try to reach your phone
 So I'm done making plans when you call it off
 I don't know what to say
 Baby is it too late?
 We just need to trust, and not mess it up
 Sit it down, talk it out, just the two of us

So don't be afraid if the room gets hotter
 I'll be putting this, putting this fire out
 We'll be putting this fire out
 Don't don't don't, don't let it go down
 Don't let it go down in flames
 Know we'll find the exit signs
 And we're gonna be okay
 The smoke in the air is gonna lead nowhere
 I won't let, won't let it go down in flames

If you need your space
 I'll give you a break
 Give you time on your own just to clear your head
 But when you say go
 Think you mean to stay
 I'll be here til the end, I won't go away

So don't be afraid if the room gets hotter
 I'll be putting this, putting this fire out
 We'll be putting this fire out

Don't don't don't, don't let it go down
 Don't let it go down in flames
 Know we'll find the exit signs
 And we're gonna be okay
 The smoke in the air is gonna lead nowhere
 I won't let, won't let it go down in flames

It's like our hearts out of focus
 And we didn't even notice
 I won't let you down, I won't let you down again
 What we've built isn't broken
 But it can happen in a moment
 And there ain't no way to burn when the fire's out

Don't don't don't, don't let it go down
 Don't let it go down in flames
 Know we'll find the exit signs
 And we're gonna be okay
 The smoke in the air is gonna lead nowhere
 I won't let, won't let it go down in flames

Don't don't don't, don't let it go down
 Don't let it go down in flames
 Know we'll find the exit signs
 And we're gonna be okay
 The smoke in the air is gonna lead nowhere
 I won't let, won't let it go down in flames
