

## AJ Mitchell - Down In Flames

```
tom:
                Ebm (forma dos acordes no tom de Am )
Capostraste na 6º casa
What you're feeling now is a sudden rush
Getting mad, lashing out but I think it's love
We don't talk for days, try to reach your phone
So I'm done making plans when you call it off
I don't know what to say
Baby is it too late?
We just need to trust, and not mess it up
Sit it down, talk it out, just the two of us
So don't be afraid if the room gets hotter
I'll be putting this, putting this fire out
We'll be putting this fire out
Don't don't don't, don't let it go down
Don't let it go down in flames
Know we'll find the exit signs
   C
And we're gonna be okay
The smoke in the air is gonna lead nowhere
I won't let, won't let it go down in flames
If you need your space
I'll give you a break
Give you time on your own just to clear your head
But when you say go
Think you mean to stay
I'll be here til the end, I won't go away
```
