Intro: C G Am F G Am

[Primeira Parte]

C G Am
Miss the taste of your lips on Sunday
And the sound of your laugh when I say something funny
F G Am
But nobody heard it, except for you
C G Am
And my mom still ask about you
I lie and say we friendly
F G Am
'Cause I don't have it in me, to tell the truth

[Pré-Refrão]

C G Am
You and me, what are we if we not together?
F G Am
It could be nothing 'cause nothing last forever

[Refrão]

C G Am
If you saw me on the train would you look the other way?
G Am
Like strangers do
C G Am
And if you passed me on the street
F
Would you look down at your feet
G Am
And move on through
F G Am
Like strangers do

C G Am
I miss the way that you looked in your sundress
The way that you looked when you undressed
F G Am
The sound of your first steps across the room
C G Am
Now my friends don't ask about you
'Cause they think I'm fine without you
F G Am
I say it's all good but it's never true (0h, no, no, woah)
