

Akon - Hold My Hand

```
Intro: C G Am F x4
 This life don't last forever
                                  hold my hand
       G
 So tell me what we're waiting for
                                          hold my hand
            G
                        Am
 We're better off being together
                                     hold my hand
    G
                      Am F
Than being miserable alone
                                 hold my hand
Cause I've been there before, and you've been there before
But together we can be alright
Cause when it gets dark and when it gets cold
We hold each other till we see the sunlight, so if you just
Hold my hand, baby I promise that I'll do
All I can, things will get better if you just
Hold my hand, nothing can come between us if you just
C G Am F
Hold, hold my, hold, hold my, hold, hold my hand
```
