I'm sittin' on my porch watchin the law
As they ride past in their patrol cars

                                         Fm
They're supposed to be here protectin' me
Em
I mighta been too far
Rm
Helpin' the contribute to makin' their job hard
Am
Servin' fiends like these people ain't no enemy
I can't believe I'm out here killin' my community
If you knew how far I came
Bm
From where I am and where I used to be
Don't want it
You can tell by the look of me
This gangsta life ain't no longer in me
And I'm tired of the runnin
Bm
Tired of the runnin
Runnin from the law
                          D
Baby you gotta believe me
         Em
Said I'm tired of the runnin
Tired of the runnin
Tired of the runnin
             Am
Runnin from the law
                          D
Baby ya gotta believe me
I know there's things I coulda changed girl
Bm
I know there's things I coulda done a lot better
Instead I'm in the streets tryin' to make that cheddar
                             D
Thinkin' in my mind you gonna be there forever
I know I coulda let it all go
Let it all go
Bm
But I was thinkin' it would make life better
Am
Instead I'm sittin in this cell writin' this letter
                                              п
Thought I wouldn't get caught cause I was way too clever
