

# Alanis Morissette - Sister Blister

Tom: C  
Intro: verse: Am F G  
Play it like this

Chorus: Am G F

Bridge: F Em F Em F Em

Am F G  
You and me we're cut from the same cloth  
Am F G  
It seems to some we famously get along  
Am F G  
But you and me are strangers to each other  
Am F G  
Cuz you and me: competitive to the bone

Am F G  
Such tragedy to trample on each other  
Am F G Am  
With how much we've endured with the state this land is in  
Am F G  
And you and me feel joined only by gender  
Am F G  
We are not all for one and one for all

Chorus:  
Am G F  
Sister blister we fight to please the brothers  
Am G F  
We think their acceptance is how we win  
Am G F  
They're happy we're climbing over each other  
Am G F  
To beg the club of boys to let us in

(now same chords than versel)

Am F G  
You and me estranged from the mother

Am F G  
You and me have felt impotent in our skin  
Am F G  
You and me have taken it out on each other  
  
You and me disloyal to the feminine  
  
Such a pity to disavow each other  
  
With how far we've come  
  
With how strong we've been  
  
And you and me are on this pendulum together  
  
You and me with scarcity still fuelling

Chorus (same than chorus1)

F Em F Em  
We may not have priorities same  
F Em F Em  
We may not even like each other  
F Em F Em  
We may not be hugely anti-men  
F Em F Em  
But such a cost to dishonour a sister

(this is the last verse, same chors, ain't no 2nd verse)

You and me have made it harder for the other  
  
We forget how hard separatism has been  
  
You and me we can help change their minds together  
  
You and me in alignment until the end

Chorus x2 and end.
