

# Alanis Morissette - Still

Tom: D

I was shocked that nobody had tabbed this song yet, so I had to go ahead and figure it out. It has got to be one of her best songs ever!

There really isn't any chords until the chorus, but I just put down some that I think sounded good.

Also, I don't know what the name of one of the strange sounding chords is. I think it sounds like a **A7M**, so that's what I'm calling it.

This part is kind of a mix of the sitar (or whatever that is) and the bass guitar at the beginning of the song
