Intro:

Ponte ao fim de casa verso:

D C G D C G  
dear matthew I like you a lot  
D C G  
I realize you're in a relationship with someone right now  
Bm A  
and I respect that  
D C G  
I would like you to know that if you're ever single in the future  
D C G  
and you want to come visit me in california  
D C G  
I would be open to spending time with you and  
G Bm A  
finding out how old you were when you wrote your first song  
D C G D C G  
dear jonathan I liked you too much  
D C G  
I used to be attracted to boys who would lie to me  
Bm A  
and think solely about themselves  
D C G  
I used to say the more tragic the better  
D C G  
the truth is whenever I think of the early 90's your face comes up with  
Bm A  
a vengeance like it was yesterday  
D C G D C G  
dear terrance I love you muchly  
D C G  
you've been nothing but open hearted and emotionally available and supportive  
Bm A

and nurturing and consummately there for me  
D C G  
I kept drawing you in and pushing you away I remember how beautiful it was  
D C G  
to fall asleep on your couch and cry in front of you for the first time  
D C G  
you were the best platform from which to jump beyond myself  
Bm A  
what was wrong with me?  
D C G D C G  
dear marcus you rocked my world  
D C G  
you had a charismatic way about you with the women and you got me  
Bm A  
seriously thinking about spirituality and you wouldn't  
D C G  
let me get away with kicking my own ass  
D C G  
but I could never really feel relaxed and looked out for around you though  
D C G  
and that stopped us from going any further than we did  
Bm A  
and it's kinda too bad because we could've had much more fun  
D C G D C G  
dear lou we learned so much  
D C G  
I realize we won't be able to talk for some time  
Bm A  
and I understand that as I do you  
D C G  
the long distance thing was the hardest and we did as well as we could  
D C G  
we were together during a very tumultuous time in our lives  
D C G  
I will always have your back and be curious about you  
Bm A  
about your career about your whereabouts
