

## Alessi - Forever

```
Tom: Gb
            Intro: Gb Abm
                                                  Abm7
 Don't explain yourself
                                                         Gb Abm7
 Doesn't matter reasons why
                                                         Gb
 I'd just assume you'd leave it never said
                                                     Db
 I'd just assume you'd go
 Gb Abm7
 I can feel your sympathy and there pity in your eyes
                                                Bbm7
                                                                                                                                                                               Ebm7
Well, do you think you mean so much to me

Db

B

Do you think I'll die
                                                       Gb Abm7
 Well you go and you play
                                                 Gb
 But don't ever think a minute that you took my love away
B Gb ADUIL/
Well I know I said a lot thing
R
 but forever really means until the day it ends
          Gb
 And that?s tonight,
                                                                                                                                                                                                 it's gonna be tonight
                                           В
 I´ve been turned aroud % \left( 1\right) =\left( 1\right) \left( 1\right) \left(
 Gb B
 And unsure of what to do
          Bbm7
 But like nature's strean that wash away
                                  Dh
 We must let it through
 And you just can't disguise
```

## **Acordes**
