Knock on my door, boy come home

And sometimes we need to

Shed our facade and be just who we are

All broken and torn, then we could be stars

Oh we could be stars...

We could be stars...

We could be stars...

Piercing lights in the dark

Make the galaxy ours

Kingdom right where we are

Shining bright as a morning

There's a space in my heart

Open arms for you to run to

Baby close your eyes and take the leap

To make believe in fairytales

I'll meet you there

Oh yea, I'll fall too

See I've wanted you here

G  
All along but my fear

Just keeps haunting me won't let me go

So it's hard to say I love you

G  
We could be stars...

D Em G  
Oh we could be stars...

D Em G  
We could be stars...

We could be stars...
