

Alex Turner - Its Hard To Get Around The Wind

tom:
C
It's like you're tryin' to get to heaven in a hurry
And the cue was shorter than you thought it would be
Dm G C
And the doorman says you need to get a wristband

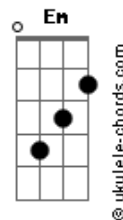

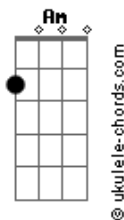

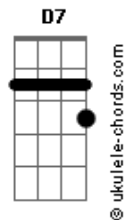

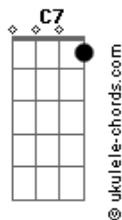

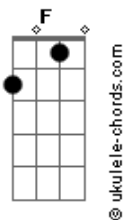

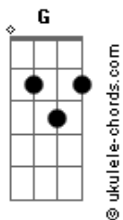

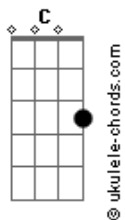

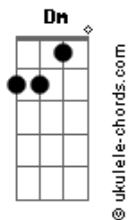

C
You gotta live between the pitfalls
But you're lookin' like you're low on energy
Dm G C
Did you get out and walk to ensure you miss the quicksand
[Refrão]

F C
Lookin' for a new place to begin
Dm G
Feelin' like it's hard to understand
C C7
But as long as you still keep pepperin' the pill
F D7
You'll find a way to spit it out again
C G Am (Am G)
And even when you know the way it's gonna blow
F G C
It's hard... to get around the wind
(C Dm Dm Em C Dm G)

[Segunda Parte]

C
Stretchin' out the neck on your evenin'
Tryin' to even out some deficit
Dm G C

Acordes

But its saber toothed, multi ball confusion
C
And you can shrink until you're hollow
Or whisper it the other way
Dm G C
Tryin' to save the youth without puttin' your shoes on
[Refrão]

[Terceira Parte]

C
I can hear you through my window
But I'm never quite sure who is who
Dm G C
But they want the world on a dessert spoon
C
It always sounds like they're fighting
Or as if thats what they're about to do
Dm G C
It might not hurt now, but it's gonna hurt soon
