

Alex Turner - Its Hard To Get Around The Wind

tom:
C

It's like you're tryin' to get to heaven in a hurry
 And the cue was shorter than you thought it would be
 And the doorman says you need to get a wristband

You gotta live between the pitfalls
 But you're lookin' like you're low on energy
 Did you get out and walk to ensure you miss the quicksand

[Refrão]

Lookin' for a new place to begin
 Feelin' like it's hard to understand
 But as long as you still keep pepperin' the pill
 You'll find a way to spit it out again
 And even when you know the way it's gonna blow
 It's hard... to get around the wind

(C Dm Dm Em C Dm G)

[Segunda Parte]

Stretchin' out the neck on your evenin'
 Tryin' to even out some deficit

But its saber toothed, multi ball confusion
 And you can shrink until you're hollow

Or whisper it the other way
 Tryin' to save the youth without puttin' your shoes on

[Refrão]

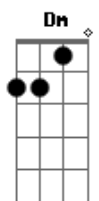

Lookin' for a new place to begin
 Feelin' like its hard to understand
 But as long as you still keep pepperin' the pill
 You'll find a way to spit it out again
 And even when you know the way it's gonna blow
 It's hard.... to get around the wind

[Interlúdio] Am C Am Dm Em Am C F D7 C G Am F G

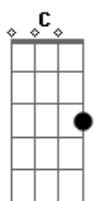

[Terceira Parte]

I can hear you through my window
 But I'm never quite sure who is who
 But they want the world on a dessert spoon
 It always sounds like they're fighting
 Or as if thats what they're about to do
 It might not hurt now, but it's gonna hurt soon
