

Alexander Stewart - I Wish You Cheated

tom:

B

I'm anxious, kinda sad

Hard to be your best when you lost the best you had

Spendin' days just on my phone

Wonderin' where it all went wrong

I'm nervous, pretty wired

I said your name too much, now my lungs got tired

Thinkin' maybe I'm to blame

I just need someone to hate

Oh-oh-oh-oh

You made this so damn hard for me

You and your goddamn honesty

It got me thinkin'

I wish you woulda cheated

And smashed my heart to pieces

I wish I had a reason I could hate your guts for leavin'

I wish you were the villain

A psycho with no feelings

So how do I move on

When you did nothin' wrong?

Ahh, ahh, ahh, ahh, ahh

Wish you did somethin' wrong

Ahh, ahh, ahh, ahh, ahh

But you did nothin' wrong

Know it's messed up, kinda bad (oh, oh)

But I wish we didn't talk and you just left like that

I'd be angry instead of numb

Damn it, who have I become?

Oh-oh-oh-oh

You made this so damn hard for me

You and your goddamn honesty

It got me thinking

I wish you woulda cheated

And smashed my heart to pieces

I wish I had a reason I could hate your guts for leavin'

I wish you were the villain

A psycho with no feelings

So how do I move on

When you did nothin' wrong?

Ahh, ahh, ahh, ahh, ahh

Wish you did somethin' wrong

Ahh, ahh, ahh, ahh, ahh

But you did nothin' wrong

In the middle of the night

I start to fantasize that you would ruin my whole life

Oh-oh-oh, 'cause you're the best I had

And I keep runnin' back like a goddamn fool tryna change your mind

You were all mine

Can't believe I

Wish you woulda cheated

And smashed my heart to pieces

I wish I had a reason I could hate your guts for leavin'

I wish you were the villain (oh-oh-woah)

A psycho with no feelings (oh-oh)

So how do I move on (oh-oh-oh)

When you did nothin' wrong?

Acordes
