

Alexandra Savior - Bones

Tom: C
Intro: Am F Am F

In my ^{Am} bones, I can feel it in my ^F bones
In a way that I've never felt before
I just can't stop from wondering where you are
How's it for you, baby?

Don't know why, don't know where to begin
Don't know what is or isn't happenin'
Don't know how, my heads in such a spin
Is yours in one too baby?

And it goes on, and it goes on and on
While your here, and long after your gone
Can't pretend no more

I just can't pretend I'm not in love with you

That's not true, true

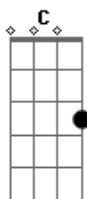

Drift away and only dream of you
And I have to say, I wake up in a mood
Ain't had your name as a knuckle tattoo
But I think I might do shawty

In my bones, I can feel it in my bones
In a way that I've never felt before
I just can't stop wondering where you are
How's it for you baby?

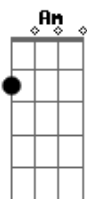

And it goes on, and it goes on and on
While your here, and long after your gone
Can't pretend no more

I just can't pretend I'm not in love with you
That's not true, true, true
