

# Alexandra Savior - Cupid

tom:

Bm

[Primeira Parte]

Filled in the hole in the road  
 We were speaking in code  
 Stuck in fantasy mode  
 Whoever really liked  
 Coming back down to Earth  
 It's not that it hurt  
 It was just so much worse  
 With anyone but you

[Refrão]

Know a shortcut  
 A sure shot  
 I forgot  
 How it ought to feel

I don't know what to do  
 It's a whole lot  
 To hold back  
 You know that  
 Cupid shoots to kill

[Segunda Parte]

There's a mysterious force  
 It sinks in its claws  
 Pulls me closer to yours

Some cosmic business  
 Illuminating allure  
 What are we waiting for  
 Never hated you more  
 Why does nobody but you

[Refrão]

Know a shortcut  
 A sure shot  
 I forgot  
 How it ought to feel

I don't know what to do  
 It's a whole lot  
 To hold back  
 You know that  
 Cupid shoots to kill

[Guitar Solo] G Gb Bm D

[Refrão]

Know a shortcut  
 A sure shot  
 I forgot  
 How it ought to feel  
 I don't know what to do  
 It's a whole lot  
 To hold back  
 You know that  
 Cupid shoots to kill
