

# Alexdry Peixotto - Dead Heart

Tom: C

I'll never be one that take you away  
Or catch you when you say

It will never be one that will pay  
You will never want someone like that

I'll never be your body through the night  
For i will be out for a while

I'll never make your life and your disires  
Because i not yet found the love of my life

I see your face in darkness

I see your your beaultfull dead heart

I see you with a fake smile

I only see your world around me

Only... Forget... Never... 2x

I'll never be one that take you away  
Or catch you when you say

It will never be one that will pay  
You will never want someone like that

I'll never be your body through the night  
For i will be out for a while

I'll never make your life and your disires  
Because i not yet found the love of my life

I see the love on your foots

I see my time fine to close  
I see, You see, We see my solidute  
My solidute in my eyes

Only... Forget... Never... 2x

I'll never be one that take you away  
Or catch you when you say

It will never be one that will pay  
It will never be one that will pay

It will never be one that will pay  
It will never be one that will pay

It will never be one that will pay  
It will never be one that will pay

It will never be one that will pay  
It will never be one that will pay

Ohwnn 4x

I'll never be one that take you away  
Or catch you when you say

It will never be one that will pay  
You will never want someone like that

I'll never be your body through the night  
For i will be out for a while

I'll never make your life and your disires  
Because i not yet found the love of my life
