

Alice Cooper - It's me

Tom: G

C

You took a first-class trip to Paris
 You danced in the streets of Spain
 You followed the sun to Rio de Janeiro
 Cuz you got so sick and tired of the London rain

Am

But honey, late at night
 When you close your tired eyes
 You'll be there and I'll be here
 And one of us will cry

REFRÃO

D

It's me, it's me
 When you need something more
 Something you're dying for

It's me, it's me
 When you can't see too clear
 Baby, I'm always near
 It's me

C

You played your cards, you felt the sorrow
 Cuz all that dealer dealt was pain
 But baby, where you gonna play tomorrow
 The stakes were too damn high
 And now, you're broke again

Am

You can trip around til all your money's blown
 But who's the man that'll take you in

When all your luck is gone

REFRÃO

And me, I'm sitting here
 Nothing much has changed
 You broke my heart to pieces, babe
 But that's nothing strange
 Well, I ain't angry

That's all come and gone
 My arms are still wide open girl
 To catch you when you fall

And if someday you realize
 Just where you belong

I'm the man that'll take you in
 When all your luck is gone

E

It's me, it's me
 When you need something more
 Something you're dying for
 It's me, it's me
 When you can't see too clear
 Baby, I'm always near

It's me, it's me
 What are you searching for
 I know you can find my door

It's me, it's me

I know you've sinned every sin
 But I'll still take you in

It's me
 Baby, it's me
