

Alicia Keys - Fallin Piano

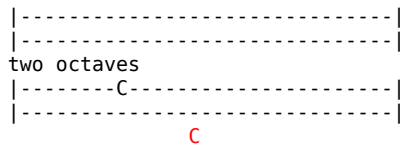

Piano tab

Tabbed by Leebop -
Any questions, just email me.

How to read this music:
--This is similar to reading regular sheet music.
--The top four lines represent the treble clef, the bottom four represent the base clef.
--The notes aren't in their exact position, but they are close.
--The notes lower than the base clef lines are in the low octaves.
Example

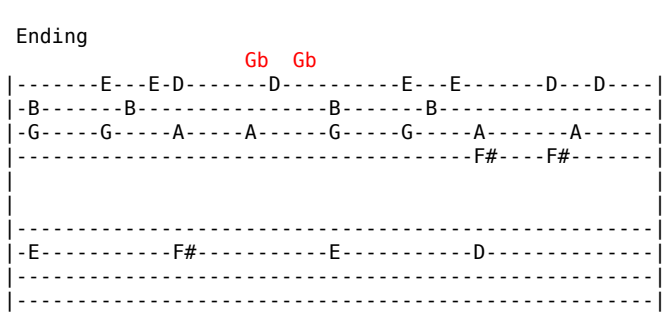

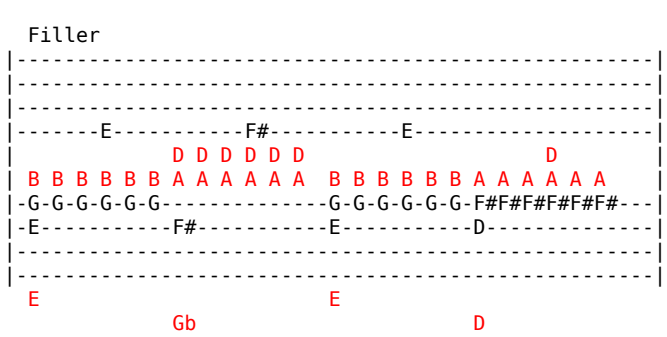

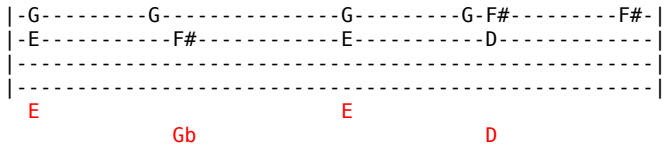

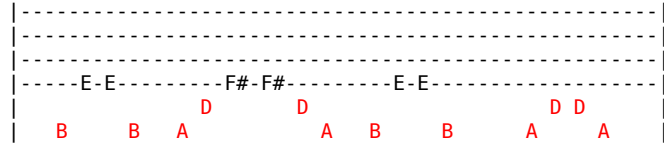

The 1st note is middle C
The 2nd note is the C one octave higher than middle C.
The 3rd note is the C one octave below middle C.
The 4th note is the C below middle C.

two octaves

Theme (repeat through whole song)
