

All Time Low - Ground Control (feat. Tegan And Sara)

tom:

Intro: Bm D G Gbm E

Bm D
Ground control

What do the books say about this one now?

I think we've lost it all

There's nothing to explain the distances any more

All systems are critical

Can't find my way back to you

Feels like there's nowhere to go-oh-oh

I'm just out here waiting for you to say

Don't be afraid, no

If you start floating away

A
Hey!

The universe on your side when
You're out in space

Don't you be afraid, no

If you start floating away

A
Hey!

The universe on your side when
You're out in space

Don't you be afraid, no

If you start floating away

(D Gbm E)

Bm A D
Checking in

300 days with no reply now

I think I've lost my mind

There's nothing keeping me from going outside any more

My systems are critical

Gotta find my way back to you

Feels like I'm drifting away-oh-oh

I'm just out here wishing that you would say

Don't be afraid, no
If you start floating away

A
Hey!

The universe on your side when
You're out in space

Don't you be afraid, no

If you start floating away

A
Hey!

The universe on your side when
You're out in space

Don't you be afraid, no

If you start floating away

(D Gbm E)

We gotta make contact to make it out

We gotta make contact to make it

We gotta make contact to make it out

If you start floating away

A
Hey!

The universe on your side when
You're out in space

Don't you be afraid, no

If you start floating away

A
Hey!

The universe on your side when
You're out in space

Don't you be afraid, no

If you start floating away

(E D)

Don't you be afraid, no

If you start floating away
