

All Time Low - Last Young Renegade

tom:
 G
 Just a couple kids on a summer street
 D Chasing around to a flicker beat
 Bm Making mistakes that were made for us
 D We brushed them off like paper cuts
 Bm You said you're sick and tired of it, it
 D But I need you morning, night and day, oh
 Bm I miss you every single way
 D We said forever, but forever wouldn't wait for us
 D You were my last young renegade heartache
 Bm It only took one night
 D Caught in the eye of a hurricane, darling
 Bm We had to say goodbye
 Bm Underneath the lights of a motorway
 D That's where I go to keep your ghost away
 Bm We used to be such a burning flame
 D Now we're just smoke in the summer rain
 Bm You said you're sick and tired of it, it
 D But I need you morning, night and day, oh
 Bm

I miss you every single way
 D We said forever, but forever wouldn't wait for us
 D You were my last young renegade heartache
 Bm It only took one night
 D Caught in the eye of a hurricane, darling
 Bm We had to say goodbye
 D I wanna know that you're somewhere out there
 Bm Somewhere down this road
 D You were my last young renegade heartache
 Bm How could I let you, how could I let you go
 Bm You were the best thing ever happened to me
 Bm And I'll keep on fighting just to make you believe
 D You were my last young renegade heartache
 Bm It only took one night
 D Caught in the eye of a hurricane, darling
 Bm We had to say goodbye
 D I wanna know that you're somewhere out there
 Bm Somewhere down this road
 D You were my last young renegade heartache
 Bm How could I let you, how could I let you go
 Bm Don't wanna let you, I'll never let you go
