

All Time Low - Stay Awake

Tom: Eb

Intro:

(Eb Ab) (2x)

Verso 1:

Eb

Caught in a cold sweat
Stuck splitting hairs
and drinking too much

I'm on my way to striking out

Eb

Go to sleep with the pressure

of everyone watching and waiting
They're yours for the taking

but I still have my doubts

Bb

Before you ask which way to go

Ab

remember where you've been

Eb

Stay awake get a
grip and get out

You're safe from the
weight of the world

Just take a second to

set things straight

I'll be fine even though

I'm not always right
I can count on the

sun to shine
Dedication takes

a lifetime

But dreams only
last for a night

Eb

Figure it out
Boy you're tripping so
pull yourself together

Or you'll wash

up like the rest

This ship is sinking
I'm thinking I'm done for
I'll watch as the sails
disappear under water

Cause I'm no captain yet

Bb

Before you ask which way to go

Ab

remember where you've been

Eb

Stay awake get a
grip and get out

Ab

You're safe from the
weight of the world

last for a night

Believe you me
I'll give them everything
I'd tell them anything
To show them everything

I'll give them everything

ones who want to live it up
You ain't the only ones
