All Time Low - Weightless

Tom: D

```
   G                  A
manage me, I'm a mess
        D                      G
turn a page, I'm a book half unread
               G                              A
I wanna be laughed at, laughed with just because
               D                                G
I wanna feel weightless and that should be enough
G
   but I'm stuck in this fucking rut
A
waiting on a second hand pick me up
         D            G
And I'm over getting older
G
  If I could just find the time
      A
Then I would never let another day go by
     D
I'm over getting old

[Chorus]
                    G
Maybe it's not my weekend
     D                A
But it's gonna be my year
     A   B   D   Gb   G
And I'm so sick of watching
                    D              A
While the minutes pass as I go nowhere
                  Bm           A         G
And this is my reaction to everything I fear
        D                G
Cause I've been going crazy
                  A                    D

I don't wanna waste another minute here

G                      A
Make believe that I impress
              D                       G
That every word by design turns a head
               G
I wanna feel reckless
                           A
Wanna live it up just because
                 D                                 G
I wanna feel weightless cause that would be enough
G
  If I could just find the time
     A
Then I would never let another day go by
     D
I'm over getting old

[Chorus]

 Bm             G                D
This could be all I've waited for
Bm             G
This could be everything
   A
I don't wanna dream anymore
                        D
Maybe it's not my weekend
                           E
But it's gonna be my year
                        G
And I've been going crazy
                  D
I'm stuck in here

[Chorus]
```
