

Allies - Send Me

tom:
Intro: F Am Dm Bb C

When your feelings are hurt again
The laborers are few
Send me when you need someone
Till the work has all been done
I'll be serving you, send me

Send me
To the hearts that have been broken
So that when your word is spoken
The wounds will start to mend
Send me
In the power of your spirit
To the ones that need to hear it
So the healing can begin

The battlefield is far away
Warriors are few
Send me to defend the faith
Till the wars have all been won
I'll be serving you, send me

Send me

To the hearts that have been broken
So that when your word is spoken
The wounds will start to mend
Send me
In the power of your spirit
To the ones that need to hear it
So the healing can begin

This world is dying day by day
And you're the only cure
I think i can show the way
How can i be sure?
Unless you
Send me
To the hearts that have been broken
So that when your word is spoken
The wounds will start to mend
Send me
By the power of your spirit, lord
To those who need to hear it
So the healing can begin!
Send me
