

Alma (France) - Sara

Tom:

Intro: D A7 Em Gbm G
D A7 Em Gbm G

Sara doesnt know anything
Shes trying to go where shes never been
Collecting coins for her was a sport
Now in her free time she sells herself short

Sara sees in me a golden gate
Silver knife cuts the bow to turquoise waves
The girl doesnt even really like the beach
For my sake she's willing to move to Maui

With me
She's us more than she's she
Oh, me
With me
Stand up for yourself, my dear

Wish you could see you're worth fighting for
But my battle I've fought, it's not my turn
The promise I made was never to trade
Sanity for kindness, god, all it brought me was

Fear

So be you more than you're this
Oh, me
I'm not free

Sara, I'm working on it
I got to know your name recently

And i love the sound of it
The way it works every corner of my mouth, but
Its not enough
I think i've learned
It's never a fantasy

For me
I've got to need more than my needs

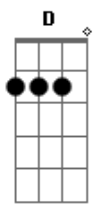

This heart
It still beats

As long as it does, i'll be here
My mama said it's all i need
Sara, trust me on this

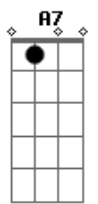

Would i lie to you?
