Am G F  
We tread these paths of light so long  
I'm right beside you just like thousand  
Times before  
I'm knocked at agony, I face a tragedy  
That feeling, deceiving, that burning your  
Soul  
My kingdom come, my will be done  
So join me fallen one  
We'll drown our sorrow to this endless sea  
Together we'll unchain the rain  
Escape the world into our sanctuary  
There in my arms you'll be free  
Your guilt I will justify  
I'll make you mine to have, to hold and  
Embrace  
A spark of mystery, the dark discovery  
In your laws, my greatest victory  
Closer a part, to offer hearts  
Let us share the stars
